# Shubhan Punde

**Computer Engineer | Cybersecurity & IAM · Data Science & ML · Data Engineering · Python, SQL, PySpark**

Pune, India · Open to relocate | Immediate joiner | shubhanpunde@gmail.com | linkedin.com/in/shubhan-punde-56378b222 | github.com/Drakeion2532

## PROFESSIONAL SUMMARY

Computer Engineering graduate (VIT Pune, 2026) with 1 year at RNS Technology Services in IAM, Zero Trust and ML-driven risk detection, plus a UNLV research internship. Ships tested systems in security, data science and data engineering, each measured against a baseline. **Saviynt ISAA and IBM Data Warehouse Engineer certified · 3 papers published (2 in IEEE Xplore).**

## TECHNICAL SKILLS

**Languages & Data:** Python, SQL, Java, C/C++, R · PySpark, Spark SQL, Hive, Pandas, NumPy, Parquet

**Machine Learning:** scikit-learn, XGBoost, Random Forest, Isolation Forest, PyTorch (CNN), SHAP, NLP, Time-Series Forecasting

**Security & Identity:** Saviynt IGA, Microsoft Entra ID, Okta, IAM / RBAC, Access Reviews, MFA, Zero Trust, UEBA, Vulnerability Assessment

**Security Tools:** Splunk (SIEM), Wireshark, Nmap, Burp Suite, Kali Linux, EDR / SOC alert analytics, AES & HMAC cryptography

**Engineering & Tools:** FastAPI, Flask, REST APIs, Git, GitHub Actions (CI), pytest, Linux, Power BI, AWS (basics)

## WORK EXPERIENCE

**Cybersecurity Analyst – IAM (Associate Technical Consultant)** | RNS Technology Services, Pune — Jul 2025 – Jul 2026

- **Automated 50% of the risk-detection workflow** with Python ML models (AI integration team); EDR/SOC alert analytics.
- **Configured Saviynt IGA (v25)**: application onboarding, entitlement configuration, access review campaigns and onboarding/offboarding; SQL reports to audit accounts across endpoints.
- **Implemented Zero Trust controls across 4 domains** (identity, endpoint, cloud, network) for 3 enterprise pre-sales engagements across Pune, Qatar and Kuwait.

**Research Intern** | University of Nevada, Las Vegas (UNLV), USA | Code — Jul 2024 – Sep 2024

- Built 30-day COVID-19 case forecasts for 6 countries using ARIMA, SARIMA, SARIMAX, Holt-Winters and Prophet.
- **25% lower forecast error** (nRMSE) than a naive baseline in a leakage-free rolling backtest; co-authored the research paper.

**Cybersecurity Intern** | Skolar (Remote) — Sep 2023 – Nov 2023

- Analyzed security events across **500+ endpoints**, flagging anomalies and escalating potential threats.
- Conducted **10 security assessments** and wrote structured vulnerability reports for enterprise clients.

## SELECTED PROJECTS

**Card Fraud Analytics at Scale** | PySpark, Spark SQL, Hive, Spark MLlib | GitHub

- **82% of fraud caught vs. 47% for rules** at the same alert rate: gradient-boosted model on 10M simulated card transactions.
- **₹28.6L (≈$34K) more fraud stopped** than rules in 30 days; daily queue of ~220 ranked alerts with reasons, on Hive + Spark SQL.

**Identity Risk Engine: UEBA for Zero Trust** | Python, scikit-learn, Isolation Forest, FastAPI | GitHub

- **All 74 attacks caught** across 7 identity-threat scenarios (0.976 PR-AUC) on 111K synthetic logins, with **~10× fewer false alerts** than Isolation Forest.
- Scores Okta-style logins vs. user and peer baselines (geo-velocity, MFA fatigue): allow / step-up MFA / block, with reasons.

**PhishGuard: Phishing & Scam Message Detector** | XGBoost, scikit-learn, FastAPI, Chrome Extension | GitHub

- **97.4% accuracy, 1.9% false positives** on 120K URLs; **87.9% recall** on a phishing feed the model never saw.
- Checks whole SMS/WhatsApp messages, incl. link-free OTP scams; shipped as a REST API, web app and Chrome extension.

**Friend Recommendation Engine** | C11, Graph Algorithms, BFS, Adamic-Adar | GitHub

- **83% of users got a real friend in their top 10** using Adamic-Adar link prediction on a real 22,470-user, 170,823-edge network.
- **0.15 ms per query** in plain C11; degrees of separation via BFS; three link-prediction scores compared, tested in CI.

**Also built**: Intrusion Detection (SHAP) · Credit Scorecard · YOLOv8 Traffic Signals (IEEE) · Plant Disease CNN · Smart Kitchen IoT · Doctor Sahyog

## EDUCATION

**B.Tech, Computer Engineering** | Vishwakarma Institute of Technology (VIT), Pune (SPPU) — Nov 2022 – Jun 2026 | CGPA 8.14 / 10

Relevant coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Machine Learning, OOP

## CERTIFICATIONS

Saviynt Identity Security for AI Age (ISAA) · IBM Data Warehouse Engineer Specialization · Data Analyst (GfG) · Querying Databases with SQL

## PUBLICATIONS & ACTIVITIES

- Multi-Model Ensemble Approach for Enhanced Cyberbullying Detection Across Diverse Categories, IEEE Xplore (ICICNIS 2024)
- Real-Time Traffic Management Using Deep Learning and Object Detection using YOLOv8, IEEE Xplore (ICCCNT 2024)
- Published: Patient Mitra: Health Card (GIJET 2023) · Also presented: Doctor Sahyog: Health Card

Activities: Coordinator, EPEC (VIT Pune) · Volunteer, Veloce Racing Club · Attended Google DevFest Pune 2025 · Languages: English, Hindi, Marathi
